L-com.com

Founded in 1982, L-com Global Connectivity (L-com.com) is a privately held corporation in Massachusetts, USA, dedicated to the design and production of a wide range of interconnect products for the electronics and data communication industries. L-com places primary product emphasis on copper and fiber cable assemblies, wireless antennas and amplifiers and accessories for modular, coaxial and computer networking applications. L-com endeavors to serve the industry by offering solutions to interconnect problems, in terms of both physical products marketed domestically and internationally and helpful information freely distributed in its catalog and web site.

In June 2007, L-com acquired HyperLink Technologies of Boca Raton, Florida, USA. HyperLink has offered a wide line of wireless products since 1994, ranging from bi-directional amplifiers to wireless LAN antenna systems. This acquisition makes the combination of HyperLink's impressive wireless offering and L-com's extensive range of interconnect products a virtual one-stop shopping source for every kind of connectivity need.

Facilities

L-com has over 400 employees and is headquartered in a modern state-of-the-art administration and distribution center in an industrial district in North Andover, Massachusetts, USA. The company operates a manufacturing facility nearby, as well as another facility in Boca Raton, Florida, USA.

To better serve its growing customer base, L-com has also established a high-volume manufacturing operation in SuZhou, China.

ISO 9001:2008

GSA Contract Holder
#GS-35F-0174S

L-com has over 30 years of experience designing and building custom connectivity products. L-com's manufacturing facilities in the U.S. and China can build just about every type of copper or fiber cable assembly as well as custom connectors and adapters. They are ISO 9001:2008 and UL Certified. L-com has the ability to manufacture custom products in large or small volumes. Fast turnaround is also available.

L-com's custom manufacturing capabilities include:

- ✓ Modular and Telco Assemblies
- ✓ Low Loss Video and Monitor Cables
- ✓ Unique Bulkhead Connectors
- ✓ Assembled and Injection Molded Data Cables
- ✓ Fiber Optic Cable Assemblies and Adapters
- ✓ HyperLink Antennas, Amplifiers and Weatherproof Enclosures
- ✓ Sheet Metal Manufacturing
- ✓ Special Bulk Cable Formulations
- ✓ Labeling and Bar Coding
- ✓ Machined or Cast Coaxial Connectors and Adapters
- ✓ Military and Special Packaging or Kitting

In order to better serve customers, use L-com's new online tool for configuring Coaxial, Fiber Optic and Telecom/Modular cables. This handy configurator saves time by allowing you to design your own cable assemblies. It's as easy as 1-2-3! Go to L-com.com/ProductConfigurator

For complete company profile information, please visit L-com.com/Profile

1. Choose a type (Coaxial, Fiber Optic or Telecom/Modular).
2. Choose your connectors, cable type and color.
3. Pick a length and quantity.

Contact your L-com Account Rep for more information, custom parts or special pricing.
