Non-Powered Weatherproof NEMA Rated Enclosures

Non-powered weatherproof enclosures are great for applications requiring the protection of valuable equipment yet do not require on-board power. Built for the long haul, these enclosures are constructed of molded fiberglass reinforced polyester.

Weatherproof NEMA Rated Enclosures with PoE Interface

L-com offers both NEMA 3R and 4X rated weatherproof enclosures with integrated PoE interfaces. These enclosures are perfect for use in Industrial, Government and Communications providers using wireless radios, electronics, control systems and other communications equipment which support PoE applications.

RoHS NEMA DIN Mounting Rail Enclosures

L-com's DIN rail enclosures offer mounting rails inside the enclosure where DIN rails can be mounted. These NEMA enclosures can be used with DIN rail products such as industrial Ethernet switches, Industrial serial converts, power supplies, and more! L-com carries a number of DIN Modules to aid engineers in specifying functional DIN systems for industrial applications.
