Power-over-Ethernet (PoE) 12 and 48 VDC Injectors

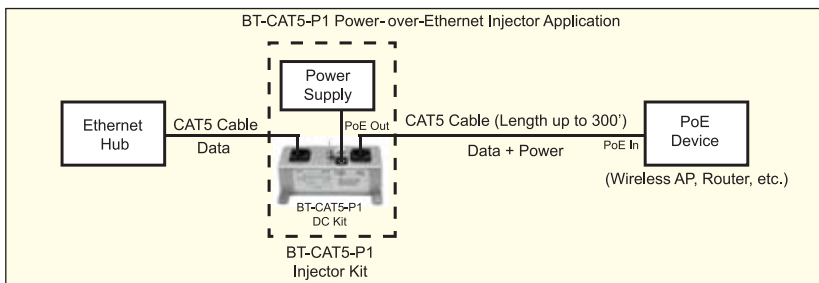

L-com offers a wide range of PoE injector styles including reverse polarity, 12 VDC and 48 VDC models. These PoE injectors can be used to connect PoE compliant devices such as access points, IP phones or wireless routers and supply data as well as power over a single Cat5 cable. Power-over-Ethernet eliminates the need for an AC outlet at each end device location. Only a single Ethernet cable is run to each device such as an access point instead of separate power and data cables. The injector is typically installed near the Ethernet switch.

RoHS All-In-One Power Supply and Injector

PS4820-POE	48 VDC, 20 W, Dual RJ45, Includes Power Cord	39.99	38.39	36.79	33.99	29.99
PS4860-POE	48 VDC, 60 W, Dual RJ45, Requires PSCORD3	74.99	71.99	68.99	63.74	56.24

RoHS Cat5 Injectors/Taps

RoHS Switching Power Supplies, Power Cords, and Lighter Power Adapters

We offer a broad range of switching power supplies which support 110/220 VAC operation. Models in this series include 9 VDC, 12 VDC, 15 VDC and 48 VDC options. Additionally, PoE power supplies are available which provide data and power over a single Cat5 cable to end devices which are compliant with IEEE standard PoE pinout (Pins 4 & 5 Power +/ Pins 7 & 8 Power -).

- 9V, 12V, 15V, 48 VDC models available
- Use with PoE injectors/taps, wireless radios, RF amplifiers and more
- 110/220 VAC operation

RoHS Switching Power Supplies

PS909-21R	9 VDC @ 1A (9W), 2.1mm DC Plug	9.99	9.59	9.19	8.49	7.49
PS1212-21R	12 VDC @ 1A (12W), 2.1mm Right Angle DC Plug	21.99	21.11	20.23	18.69	16.49
PS1224-21R	12 VDC @ 2A (24W), 2.1mm Right Angle DC Plug	24.99	23.99	22.99	21.24	18.74
PS1240-21R	12 VDC @ 3.33A (40W), 2.1mm Right Angle DC Plug	64.99	62.39	59.79	55.24	48.74
PS1566	15 VDC @ 4.4A (66W), 2.1mm DC Plug	89.99	86.39	82.79	76.49	67.49
PS4870-25R	48 VDC @ 1.5A (70W), 2.5mm Right Angle DC Plug	59.00	56.64	54.28	50.15	44.25
