Installing an L-com Information Outlet System

See The Video
www.L-com.com/Videos/A17

STEP 1

1. Pull all cables through the wall plate and attach the plate to the wall box or bracket.

STEP 2

2. Attach cables to each module. At this time, it's best to test cable connections for continuity.

STEP 3

3. Insert completed modules into wall plate and snap firmly into place.

✓RoHS Decora Style Wall Plate System with Keystone Ports

Combine all your cable connections into L-com's Decora style wall plates. This popular design provides a clean, modern look to cable connections in a finished room. With support for up to three keystone jacks, you can easily combine all your telephone, network, and video connections needs in one Decora plate for a professional, finished appearance. Volume discounts are available; contact us today with your project needs.

MWP503-WT	Decora Style Wall Plate Insert with 3 Keystone Ports	1.49	1.34	1.19	1.04	0.89

Wall Plate Mounting Bracket for Class 2 Wiring

The wall plate mounting bracket is an excellent aid for electricians and cable installers to mount single gang wall plates at any convenient wallboard location. There is no need for traditional metal boxes which inhibit the installation of coaxial and data cables. Furthermore, users can make use of the complete wall cavity to hold excess cable and avoid sharp bends. These brackets have universally spaced threaded holes to accept any standard single or double gang wall plate. It's simple to install, just start by making a 2 1/8" W x 3 5/8" H (single gang) or 3 7/8" W x 3 5/8" H (double gang) rectangular hole and then tighten the built-in mounting screws. Large quantity pricing for installation contractors is available upon request.

WPMB1	Wall Plate Mounting Bracket for Class 2 Wiring, Single Gang	2.49	2.34	2.19	2.04	1.89
WPMB2	Wall Plate Mounting Bracket for Class 2 Wiring, Double Gang	2.95	2.77	2.60	2.42	2.24

✓RoHS Shielded Category 5E and 6 Surface Mount Boxes

L-com's Shielded Modular Surface Mount Boxes offer users a complete solution to EMI/RFI problems. By utilizing fully shielded jacks and connecting hardware, users can reduce the effects of interference on the network data transmissions. All jacks feature 110-style punch down connections for fast and easy termination. Surface mount boxes come pre-installed with shielded jacks.
