<b>✓RoHS</b>	<b>BNC Test Leads and Adapters - Your Most Useful Laboratory Accessory Items</b>					
Here's an opportunity to purchase quality test lead and adapter accessories for your lab. For use primarily with BNC connectors and dual banana plugs which are the most popular in the lab.						
<a href="#">BC25</a>	Test Cable, BNC Male / 6" Leads with Tinned Ends	3.25	2.99	2.73	2.47	2.21
<a href="#">BC30</a>	Test Cable, BNC Male / 6" Leads with Banana Plugs	4.75	4.37	3.99	3.61	3.23
<a href="#">BC40</a>	Test Cable, BNC Male / 6" Leads with Test Clips	4.95	4.55	4.16	3.76	3.37
<a href="#">BC50</a>	Test Cable, BNC Male / 6" Leads with Alligator Clips	4.75	4.37	3.99	3.61	3.23
<a href="#">BC55</a>	Test Cable, BNC Female / 6" Leads with Tinned Ends	3.25	2.99	2.73	2.47	2.21
<a href="#">BC60</a>	Test Cable, BNC Female / 6" Leads with Banana Plugs	4.75	4.37	3.99	3.61	3.23
<a href="#">BC70</a>	Test Cable, BNC Female / 6" Leads with Test Clips	4.95	4.55	4.16	3.76	3.37
<a href="#">BC80</a>	Test Cable, BNC Female / 6" Leads with Alligator Clips	4.75	4.37	3.99	3.61	3.23
<a href="#">BC2720</a>	Test Adapter, BNC Male / Dual Binding Posts	5.45	5.01	4.58	4.14	3.71
<a href="#">BC2730</a>	Test Adapter, BNC Female / Dual Binding Posts	5.45	5.01	4.58	4.14	3.71
<a href="#">BC2710</a>	Test Adapter, BNC Female / Dual Banana Plugs	4.95	4.55	4.16	3.76	3.37

<b>✓RoHS Solder Cup Banana Plugs - Red or Black, Accepts up to 16 AWG Wires</b>						
<a href="#">BC030R</a>	Solder Type Banana Plug, Red	1.35	1.24	1.13	1.03	0.92
<a href="#">BC030B</a>	Solder Type Banana Plug, Black	1.35	1.24	1.13	1.03	0.92

<b>✓RoHS Coaxial Test Cables - With BNC and Dual Banana Plugs, Choice of Lengths</b>						
These test cables use the most popular 50 Ohm RG58C coaxial cable. Choice of two series as shown.						
<a href="#">BCC58C-1</a>	Test Cable, BNC Male / Dual Banana, 1.0 ft	14.50	13.92	13.34	12.76	12.18
<a href="#">BCC58C-2</a>	Test Cable, BNC Male / Dual Banana, 2.0 ft	15.25	14.64	14.03	13.42	12.81
<a href="#">BCC58C-3</a>	Test Cable, BNC Male / Dual Banana, 3.0 ft	16.00	15.36	14.72	14.08	13.44
<a href="#">BCC58C-4</a>	Test Cable, BNC Male / Dual Banana, 4.0 ft	16.75	16.08	15.41	14.74	14.07
<a href="#">BCC58C-5</a>	Test Cable, BNC Male / Dual Banana, 5.0 ft	17.50	16.80	16.10	15.40	14.70
<a href="#">BCB58C-1</a>	Test Cable, Dual Banana / Dual Banana, 1.0 ft	14.50	13.92	13.34	12.76	12.18
<a href="#">BCB58C-2</a>	Test Cable, Dual Banana / Dual Banana, 2.0 ft	15.25	14.64	14.03	13.42	12.81
<a href="#">BCB58C-3</a>	Test Cable, Dual Banana / Dual Banana, 3.0 ft	16.00	15.36	14.72	14.08	13.44
<a href="#">BCB58C-4</a>	Test Cable, Dual Banana / Dual Banana, 4.0 ft	16.75	16.08	15.41	14.74	14.07
<a href="#">BCB58C-5</a>	Test Cable, Dual Banana / Dual Banana, 5.0 ft	17.50	16.80	16.10	15.40	14.70

<b>✓RoHS Dual Banana Plug - Easy Connection to Coaxial Cable or Discrete Wires</b>						
This dual banana plug allows easy connection to coaxial cable with an outer diameter of .220 in. or less. Screw terminals allow termination without soldering. Gold plated.						
<a href="#">BP125209</a>	Dual Banana Plug for Coax or Wires	2.95	2.71	2.48	2.24	2.01

<b>BNC/Banana/Binding Post Adapter Kit - What You Need to Mate Any Test Cable</b>						
This kit contains 1 each BNC female and BNC male to dual binding posts, BNC female to dual banana plugs and a pair of BNC gender changers M-M and F-F. Provided in a 7 compartment plastic box (2 spares). Assortment price represents a cost savings over the purchase of individual units. Save even more when purchased in multiple lots.						
<a href="#">BC2700K</a>	5 Piece BNC / Dual Banana Adapter Kit	19.95	18.75	17.56	16.36	15.16

**Tip** *What are the differences between various laboratory test leads?*

The common feature of test leads used in a laboratory environment is ease of connection and disconnection since most attachments are temporary in nature and are often being changed. Below is a list of some of the most common test leads found in a lab.

 <p><b>Banana Plugs</b> A high-quality plug and socket for speaker cable. The banana plug is pushed into the socket, the spring-like protrusions on the prong make a snug fit.</p>	 <p><b>Binding Posts</b> Typically used in an audio application, it features a threaded collar for gripping bare wires.</p>
 <p><b>Alligator Clips</b> A spring-loaded clip with serrated jaws, often used to make temporary electrical connections.</p>	 <p><b>BNC Connector</b> A commonly used coaxial interface for audio, video and networking applications that provides a secure connection. Coupling is achieved utilizing mating post on the jack and a spring loaded coupling nut on the plug. A simple quarter turn of the coupling nut completes the mating process.</p>
 <p><b>Test Clips</b> Used in many probing applications, test clips can be quickly attached to bare wires or other conducting features.</p>
