L-com's Tool-less Jack Series
 For the best performance with a unique IDC connection that is easy to use and reliable, L-com's tool-less jacks are the answer. An easy to use wire guide makes it effortless for users to terminate their conductors securely. The wire guide acts like a punch tool to press the conductors into place. It is also conveniently labeled with both EIA568A and B color codes for universal usage in all network installations. Each connector is gated so users can be sure the conductors are securely locked into the jack and to prevent accidental disconnects. Each jack is intelligently designed into a compact and efficient body. Jacks are also available with a flanged connector for installation in panels too thick for a standard keystone.

RoHS Category 5E - Tool-less Keystone Jacks

RJTL5E-WT	Category 5E Tool-less Keystone Jack, RJ45 (8x8) 568A/B	White	4.95	4.46	3.96	3.46	2.97

RoHS Shielded Category 5E, 6 and 6A Jacks

L-com's shielded modular jacks offer users a complete solution to EMI/RFI problems. By utilizing fully shielded jacks and connecting hardware, users can reduce the effects of interference on the network data transmissions. All jacks feature 110-style punch down connections for fast and easy termination.
