

L-com's enclosures can now be digitally printed.

DIGITAL PRINTING AVAILABLE ON ENCLOSURES

L-com NB series enclosures can now be ordered with digital printing. Lower in cost than traditional silkscreen printing, digital printing provides customers the option to have permanent labeling and logos printed right on the enclosure. With full CMYK color printing, logos can be printed directly on the enclosures making them ideal for OEM applications. In addition to enclosures, digital printing is also available on enclosure mounting plates. Some of the advantages to digital printing include:

Fast Turnaround Time

- Custom orders ready in days, not weeks
- No minimum requirements, print 1 or 1000

Unlimited Color Options

- Full color CMYK printing
- Exact color matching
- Logos, warning labels, safety information, instructions, pictures, QR codes and much more

Flat Surfaces Up To 5.5" High

- Printing available on covers with or without Lexan windows
- Metallic and non-metallic mounting plates

Long-Lasting and UV Resistant

- High quality UV curable ink
- Excellent adhesion properties
- Designed for use in outdoor environments

Save Time, Money and Labor

- No set up or retooling charges
- Eliminate the need for expensive silkscreen outsourcing
- Replaces expensive and difficult to install adhesive back overlays

For more information on digital printing for enclosures, please contact your L-com representative or call the numbers below.
