

## *How does the latching USB connector work?*

**STEP 1**

Latch

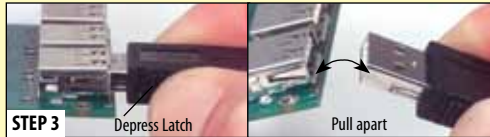

Insert the latching USB connector into the USB jack.

**STEP 2**

Latch in channel

The latches on each side of the connector lock into the channel cut-outs of any USB jack. **Note:** It may be necessary to rock the latching connector slightly to set the latches into the channels.

**STEP 3**

Depress Latch

Pull apart

To remove the latching USB connector, simply depress the release mechanisms on the sides of the backshell and pull apart.
