How does the latching USB connector work?

STEP 1
Insert the latching USB connector into the USB jack.

STEP 2
The latches on each side of the connector lock into the channel cut-outs of any USB jack. **Note:** It may be necessary to rock the latching connector slightly to set the latches into the channels.

STEP 3
To remove the latching USB connector, simply depress the release mechanisms on the sides of the backshell and pull apart.
