Description

The L-com LCANMOB1003-TM is an omnidirectional antenna with a magnetic NMO mount specifically designed for high-performance applications. This vertically polarized omni antenna with NMO mount is available in black color. Our high-quality antenna can operate at frequencies ranging from 136 to 940 MHz, which is ideal for indoor low-profile, in-building, and mobile applications. This non-infrastructure antenna has a 4.5 dBi gain, which transmits high-power signals and faster speed. This vertically polarized omni antenna with NMO mount is available in white color.

The LCANMOB1003-TM in-building antenna from L-com features an NMO-type magnetic mount, which is ideal when the portability of the antenna is required. This NMO antenna mount is constructed with a heavy-duty magnet to ensure secure mounting. No drilling is required for the installation of this antenna mount, making it easy to fine-tune the antenna location. The magnetic base is easy to install and offers a temporary plug-and-play installation. Our magnetic mount comes with a TNC male connector and can be used for WLAN, Wi-Fi, public safety, and mobile RF applications.
